PROFILE SUMMARY

Senior Java Backend Developer with 5 + years of experience building scalable enterprise applications using Java 8, Spring Boot, Microservices, REST APIs, Hibernate/JPA, MySQL, and Kafka. Strong expertise in backend system design, secure API development, Spring AI ,Spring Security + JWT authentication, event-driven architecture, and performance optimization. Experienced in Agile delivery, CI/CD pipelines, and working with cross-functional teams.
Seeking Remote Backend Engineer / Java Developer roles.

TECHNICAL SKILLS

Languages: Java 8, J2EE
Backend: Spring Boot, Microservices, Spring MVC, Spring Security, REST APIs
Database: MySQL, Query Optimization
ORM: Hibernate, JPA
Messaging: Kafka
Testing: JUnit, Mockito, TestNG
Tools: Git, Jenkins, Postman, Swagger/OpenAPI, JIRA
Other: CI/CD, Agile/Scrum

PROFESSIONAL EXPERIENCE

LTIMindtree Pvt Ltd – Senior Software Engineer Remote | Dec-2024 – Present
Project: HSBC Credit Card Platform (HSBC-CC) (FinTech)

- Developed and enhanced backend microservices supporting credit card banking operations.
- Implemented secure authentication and authorization using Spring Security and JWT.
- Built REST APIs for user registration, login, profile management, and account verification.
- Implemented RBAC (Role-Based Access Control) to improve security and access control.
- Improved performance through optimized MySQL queries and caching strategies.
- Supported production deployments and bug fixes in agile environment.

Intellect Design Arena Ltd – Java Developer Remote | Apr 2024 – Dec 2024
Project: Nedbank Liquidity Management System (FinTech)

- Developed Spring Boot microservices for Notional Pooling and Sweeps liquidity workflows.
- Implemented backend logic for real-time interest calculation across corporate accounts.
- Integrated Kafka for event-driven communication between microservices.
- Developed REST APIs and documented them using Swagger/OpenAPI.
- Performed debugging and performance tuning for stable production releases.

Cognizant Technology Solutions – Java Developer Remote | Oct 2021 – Apr 2024
Project: KAUST Integrated Digital Experience (KIDE)

- Developed microservices for Order Management and Payment Management modules.
- Built REST APIs for payment processing, invoice generation, and dispute resolution.
- Implemented database integration using Hibernate/JPA with optimized MySQL queries.
- Wrote unit test cases using JUnit and Mockito for improved reliability.
- Worked with Agile teams using JIRA, Git, and CI/CD pipelines.

Webstash Technology Pvt Ltd – Intern Remote | Dec 2020 – May 2021

- Developed responsive web pages using HTML5, CSS3, JavaScript.
- Supported testing, bug fixing, and performance optimization for e-commerce websites

EDUCATION

B.Tech – Electronics & Communication Engineering
G.H. Raisoni College of Engineering and Management, Pune | CGPA: 8.05 (2017–2021)
